

Supporting the future of Halton Healthcare

Burlington and Georgetown Trucks | 2015

Working together, we are providing a solid foundation for Halton Healthcare's future.

In 2015, we proudly increased the total amount raised for Halton Healthcare Services to \$775,000 since the program's inception in 2008. It is thanks to the support from our customers within the construction industry that we are helping to build stronger communities.

To past, present and future sponsors: Thank you for supporting our hospitals.

Caring Today, Growing for Tomorrow.

Past and Present Sponsors

A message from Oakville-Trafalgar Memorial Hospital Foundation:

On behalf of the Oakville Hospital Foundation, we are extremely grateful and honoured to partner with Dufferin Aggregates – Ready Mix Drum Program and the sponsoring businesses.

We hit the ground running when we opened our doors at the new Oakville Trafalgar Memorial Hospital last December, and we continue to work hard to meet the healthcare needs of our community. In the first six months alone our emergency department has treated 28,437 people; we've delivered 866 babies; we've performed 4,632 surgeries and we've run over 2.2 million lab tests.

This incredible accomplishment is thanks in part to you and your commitment to improve healthcare in our community through your philanthropy.

Your generosity funds the essential equipment needed by our caregivers.

Moving forward, the Oakville Hospital Foundation and our community is on a new journey that will support the ever changing healthcare needs of a much larger and more advanced Hospital.

New advanced equipment and less invasive procedures make patient care at OTMH better than it has ever been.

Thank you for driving the best in healthcare for our community.

– Tina Triano, Chief Executive Officer

A message from Milton District Hospital Foundation:

The Milton District Hospital Foundation is honoured and extremely grateful for our partnership with Dufferin Aggregates Ready Mix Drum Sponsorship Program.

Support from Dufferin Aggregates and the sponsoring businesses of the Ready Mix Drum Program is greatly valued and is of vital importance to Our Home, Our Hospital, the Campaign to Expand Milton District Hospital; the most significant fundraising campaign in the history of our community. In June of this year we celebrated the official topping-off ceremony of our hospital expansion, which is set for completion in the spring of 2017 with patient care beginning a few months later, in the fall.

The expansion of Milton District Hospital will triple the size of our hospital, our plan involves implementing new technology, surgical and diagnostic equipment, adding more services—and more beds. A bright, spacious, expanded Emergency Department and Maternal Newborn Unit with state-of-the-art comfort and infection control are key in the vision for our hometown hospital.

The Our Home, Our Hospital Campaign will support equipment purchases required for our new 330,000 square foot expansion. State-of-the-art equipment is required to support a wide range of expanded services, such as

emergencies, surgeries, childbirth and complex continuing care, as well as ambulatory care, rehabilitation services, diagnostic imaging such as colonoscopy, x-ray, and CT scans to name a few.

Compassionate care is a hallmark of our hospital—and this Milton tradition will continue as we expand to serve a larger, increasingly diverse community.

I would like to extend our heartfelt gratitude for your support and generosity, on behalf of Milton District Hospital Foundation, our patients and their families, staff, physicians and volunteers. Your gift will be instrumental in helping us reach our campaign goal of \$30 million and transform healthcare for our friends and neighbours.

Our Home, Our Hospital - We're in this together!

– Helen Vatisas, Executive Director

A message from Georgetown Hospital Foundation:

The Georgetown Hospital Foundation sincerely appreciates the continued support of Dufferin Aggregates, a division of CRH Canada, and the Ready Mix Drum Sponsorship Program.

Your generous support has a direct impact in ensuring that our nurses and doctors have access to the necessary medical equipment needed to provide the best healthcare close to home. Alongside being an instrumental force in the renovation of our emergency department in 2014, your support continues to fund much needed medical equipment which government funding alone does not cover.

Moving forward in 2016, the contribution from Dufferin Aggregates and the Ready Mix Drum Sponsorship Program will go toward purchasing medical equipment like a Green Light Laser. This piece of equipment makes an invasive surgical procedure, a less invasive out-patient treatment with minimal recovery time.

By contributing to the Ready Mix Drum Sponsorship Program, Dufferin Aggregates and your past and present sponsors assist in equipping the Georgetown Hospital with the best medical technology. As we look into the future, the state of our community's healthcare looks promising with the continued philanthropic efforts from businesses like Dufferin Aggregates. Thank you, your support changes lives.

– KC Carruthers, Executive Director

Cheque Presentation

About the Dufferin Aggregates - Ready Mix Drum Sponsorship Program

The Ready Mix Drum Sponsorship Program is an initiative spearheaded by CRH, through the divisions of Dufferin Concrete and Dufferin Aggregates. The investment in our hospitals is made possible through the contributions of our business partners. With your support of \$5,000 per corporate logo, you are helping to ensure the communities of Halton have access to quality healthcare close to home and work. Halton Healthcare Services, which includes Milton District Hospital, Oakville-Trafalgar Memorial Hospital and Georgetown Hospital, receives 100% of the funds raised to purchase vital medical equipment.

Benefits of Sponsorship

- **Advertising exposure for one year. The 2 ready mix trucks each deliver approximately 1,000 loads per year in Georgetown, Milton, Burlington, Oakville, and the Niagara Region;**
- * **Special event exposure. The ready mix trucks will be on display at Hospital fundraisers, CRH Canada open houses, and various community events;**
- **Your \$5,000 donation will qualify you for a taxable donation receipt direct from the Hospital Foundation; and**
- **Demonstrate your corporate social responsibility by contributing to the development of Halton Healthcare Services and by helping to build strong community partnerships.**

We take great pride in our contributions to improve the quality of life in the communities around our operations and look forward to your partnership to do so.

Corporate Giving and Sponsorship

Dufferin Aggregates, a division of CRH Canada Group Inc., has built a solid reputation for its commitment to the communities where our facilities are located. Our focus is to work as partners to build communities, lessen our impact on the natural environment, meet the needs of customers, and create value for all our stakeholders. This dedication is reflected in our diverse corporate social responsibility efforts across Canada and specifically in Halton Region.

In addition to the sponsorship program with Halton Healthcare Services, we have organized popular Open Houses and tree planting events at our various sites and an annual Earth Day clean up with the help of our employees. We have forged a number of strong partnerships with organizations such as Scouts Canada and Bruce Trail; extended our support to a range of local charities each year such as Halton Food for Thought; and participated in local Habitat for Humanity builds.

CRH Canada employees in Halton volunteer for many local organizations including the Nassagaweya Rural Road Community, the Bruce Trail Club, the Salvation Army, the Annual MDHF Classic Golf Tournament, Habitat for Humanity Halton, Town of Oakville Parks, Trails & Gardens Department and Halton Children's Water Festival.

About CRH Canada Group Inc.

CRH Canada Group Inc. is one of the country's largest vertically integrated building materials and construction companies. With 3,000 employees, we manufacture cement, aggregates and ready mix concrete and provide construction services to many of Canada's largest infrastructure projects. Our business divisions include Dufferin Aggregates, Dufferin Concrete and Dufferin Construction in Ontario and Demix Agrégats, Demix Béton and Demix Construction in Québec.

As a major employer and a part of the local communities in which we operate, CRH Canada has a long-term commitment to its neighbours and is part of the foundation for building healthy, vibrant and livable communities.

About Dufferin Aggregates

Dufferin Aggregates, a division of CRH Canada Group Inc., is a leading supplier of aggregates for the construction industry in the Greater Toronto Area (GTA) and adjacent municipalities. Dufferin Aggregates operates 21 sites across Ontario. With its many awards for community relations, resource and environmental management, Dufferin Aggregates has gained regional, national and international recognition as an industry leader.
